Lieutenant Colonel Ryan Nowlin, Director

WINTER/SPRING CONCERTS

Dear Friends of "The President's Own,"

It is my distinct pleasure to welcome you to the 2025 concert season featuring the men and women of the United States Marine Band and Marine Chamber Orchestra.

This year we are thrilled to celebrate the 250th anniversary of the United States Marine Corps! We have two concerts dedicated to the history, tradition, and honor of the United States Marine Corps and all Marines past, present, and future.

The concert Uncommon Valor: Remembering Iwo Jima is a time capsule concert in February honoring those who came before us and pays tribute to their selfless service and sacrifice. In March

we will perform a gala concert honoring the 250th anniversary at The Music Center at Strathmore not only featuring the Marine Band, but also "The Commandant's Own" United States Marine Drum & Bugle Corps and Marine musicians from fleet bands across the globe. This will be a concert not to miss!

In addition to these anniversary-themed performances, other season highlights include:

- the annual Sousa Season Opener with music by "The March King" and selections he would have programmed regularly
- an interactive Young People's Concert featuring shadow puppets and a chance for children to try the instruments themselves in our very own "musical petting zoo"
- a collaboration with Equity Arc which features young musicians performing alongside members of "The President's Own"
- our annual Summer Blast Off! at Wolf Trap on Memorial Day weekend which features a collection of patriotic music, popular showtunes, and the best fireworks around

Whether you are a curious newcomer or loyal follower, our series is more than a collection of individual concerts—it is a community. We invite you to join us and allow the music to spark curiosities, make meaningful connections, and create lasting memories.

We look forward to sharing the fellowship of music-making and thrill of live performance in our 2025 concert series.

With sincere appreciation,

LtCol Ryan Nowlin
Director, United States Marine Band

SOUSA SEASON OPENER

SUNDAY, FEB. 2 • 2 PM

Capt Darren Y. Lin, conducting

Marine Band at NOVA, Alexandria, VA

"The President's Own" United States Marine Band kicks off its 2025 concert season with the annual Sousa Season Opener! Enjoy pieces such as Overture to *Die Fledermaus* by Johann Strauss Jr., *The Pines of Rome* by Ottorino Respighi, as well as patriotic marches from "The March King" himself, John Philip Sousa. John Philip Sousa was only 25 years old when he was called back by the Commandant of the Marine Corps to serve as the United States Marine Band's 17th Director in 1880. During the next 12 years, Sousa simultaneously transitioned "The President's Own" from a local military band into a world-renowned musical organization and transformed himself into a national celebrity and "The March King." Sousa's musical interests were often reflected in his programmatic style, as is represented in this performance.

Join the Marine Band for a time capsule concert honoring those who came before us with selections that pay tribute to their selfless service and sacrifice. Igor Stravinsky's *Apollon musagète* made its debut in the city of Washington almost 100 years ago. *Apollo*, as it is often referred to, was commissioned to be played at a music festival at the Library of Congress in 1928. Stravinsky yielded his artistic freedom to compose a storyline around Greek mythology, featuring Apollo and his three muses: Calliope, Terpsichore and Polymnia. Split into two tableaux, or scenes, *Apollo* is starkly different from Stravinsky's earlier works. Join the musician-led orchestra for this neoclassical ballet and other orchestral works!

Front and center in this performance is the world première of *Burst*, by Cole Reyes, the winner of the Marine Band's Call for Scores, held in 2024 and supported by the Marine Corps Heritage Foundation. The composition was selected from nearly 80 submissions and was inspired by images released from NASA's James Webb telescope and the many celestial phenomena that happen constantly in our universe.
